

Safari Books Online is an outstanding, current e-reference library with more than 6,300 technical titles for programmers and information technology professionals, college faculty and students. Read books from cover to cover or click directly from the table of contents to the chapter or section you need.

Technical Hints:

- A. Username/Password
  - On Campus—They are not required.
  - Off Campus—MyESCC username and password are required.
- B. Browser
  - Most popular browsers are supported.
  - Safari requires Flash, version 9 or above.
- C. Log Out
  - Always log out when you finish.
  - If you log out and wish to return, close your browser and open a new session.
- D. Printing
  - You can print entire sections or whatever is open on the screen at one time.
  - You will not be allowed to download information for printing or viewing offline.
- E. CDs
  - Many technical books also have CDs. If available, you will find links to Extras.
- F. **“Product is Currently Unavailable”**
  - If you receive that message, others are viewing that title. Please try again later.

Search Options:

1. Browse by topic or category, title, author, or publisher.
2. Use Advanced Search for more search options.
3. Search by table of contents or index once you select a book.
4. Choose sections in other books identified as Additional Reading.
5. View Top Sellers in your category as selected by Safari.

HELP
